

WHEN THE GOING GETS ROUGH...

For hemorrhoid sufferers, even an activity as simple as going to the bathroom can be a real challenge.

Help your patients regain their quality of life with the Redfield IRC2100™ Infrared Coagulator – the choice of thousands of doctors worldwide.

The IRC2100™ is:

- Quick and easy to learn
- Well-tolerated by patients
- Used without anesthesia

No other non-surgical hemorrhoid treatment is faster, safer, and easier to administer, with fewer complications.

Learn how the IRC2100™ fits into your practice.
